with the National Environmental Policy Act (NEPA) and Commandant Instruction M16475.1B, the U.S. Coast Guard must conduct an Environmental Assessment (EA) before a Marine Event Permit can be issued. An EA is a brief report that provides sufficient evidence and analysis of the potential environmental effects of a proposed action and its alternatives. An EA is the document used for determining whether to prepare an Environmental Impact Statement (EIS) or a Finding of No Significant Impact (FONSI).

Background and Discussion

The Seattle Seafair Unlimited Hydroplane Race and Airshow is an annual event held on the waters of Lake Washington in an area west of Mercer Island, south of the I–90 floating bridge, and north of Bailey Peninsula.

Waterborne activities during the event will include two days of hydroplane time-trials and one day (Sunday, August 6, 1995) of hydroplane races. A log boom will separate the race course and the boaters' viewing area. Spectator craft will congregate in the area east of the log boom and will be present, in increasing numbers, on all three days. The number of spectator boats on Sunday, August 6, 1995, is estimated to be between 1700 and 2000.

On the shores of Jefferson Park along the west side of the race course, vendors, spectators, race officials, and boat crews will conduct shoreside activities. First aid stations will also be set up close to the pit area and on Mercer Island. Increased traffic, both vehicular and pedestrian, is expected during the event. This may result in temporary road closures in residential areas to keep traffic on arterial streets.

During the three day event, airshows will periodically be performed over Lake Washington. All flight demonstrations will be done over the hydroplane race track in a designated "airbox." Acrobatic maneuvers and aerial stunts will be confined to the airbox and will be performed only when the area below the airbox is clear of waterborne craft. In addition to the marine event permit issued by the Coast Guard, the sponsors of this event must obtain a separate permit from the Federal Aviation Administration for the airshow.

DEPARTMENT OF THE TREASURY

Bureau of Alcohol, Tobacco and Firearms

[Notice No. 810]

Commerce in Explosives; List of Explosive Materials

Pursuant to the provisions of Section 841(d) of Title 18, United States Code, and 27 CFR 55.23, the Director, Bureau of Alcohol, Tobacco and Firearms, must publish and revise at least annually in the **Federal Register** a list of explosives determined to be within the coverage of 18 U.S.C. Chapter 40, Importation, Manufacture, Distribution and Storage of Explosive Materials. This chapter covers not only explosives, but also blasting agents and detonators, all of which are defined as explosive materials in section 841(c) of Title 18, United States Code. Accordingly, the following is the 1995 List of Explosive Materials subject to regulation under 18

U.S.C. Chapter 40, which includes both the list of explosives (including detonators) required to be published in the Federal Register and blasting agents. The list is intended to also include any and all mixtures containing any of the materials in the list. Materials constituting blasting agents are marked by an asterisk. While the list is comprehensive, it is not all inclusive. The fact that an explosive material may not be on the list does not mean that it is not within the coverage of the law if it otherwise meets the statutory definitions in section 841 of Title 18, United States Code. Explosive materials are listed alphabetically by their common names followed by chemical names and synonyms in brackets. This revised list supersedes the List of Explosive Materials dated January 7, 1994, (59 FR 1056) and will be effective as of the date of publication in the Federal Register.
